2. Find the student typing ID or name in the search box

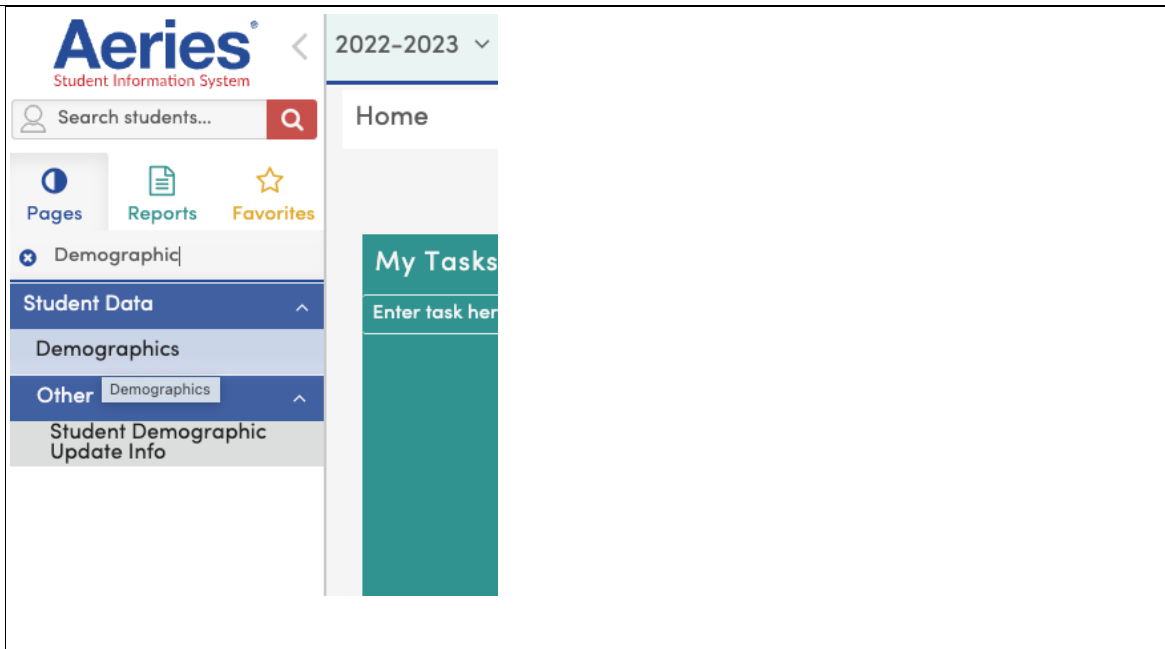

The Search tool accepts the complete or partial Student Name, Student Number, Student ID, State Student ID or SSN/S-Number (if used). Click the magnifying glass icon to bring up the Student Search window. This window allows for a new Search to be started and lists search tips. The default Search is limited to the current school. To search another School use the School selector to change Schools before searching.

3. Click on the student

The screenshot shows the "Student Search" window. At the top, there are filters: "Include Inactive Students" (checked), "Search All Schools" (unchecked), and "Fuzzy Search Results" (unchecked). Below the filters are links for "Reverse Lookup", "Recently Viewed", "Multi Student Search", and "Multi-Year District". A search box contains the text "johns".
